We had the 5ft love letter and they made a massive impact in our wedding venue. Everyone commented on them and asked where we got them from. They were a real focal point in the room and everyone wanted a picture with them. I would recommend them to everyone.

I already knew what I wanted for the day so there was not much discussion from Wedding Venue Lighting. They did check and confirm things which was good and the room looked amazing once set up and everything was in the right place. Very helpful and friend and easy to talk to and replied in good time to questions and queries.

The venue looked breathtaking, and they were really flexible with me even though I'd bought way to many decorations! I explained what I wanted, and came back later to the picture I'd had in my head!

The lighting was recommended to us by the team at the venue and we were so glad - it made a fantastic space completely magical.

Kelly and Matt were patient and helpful with my enquiries and bookings Everything was delivered early and in perfect condition Matt returned to check everything was in order. He was very friendly and extremely helpful. By far the best vendor we had in every way.

The supplier was flexible and willing to make amends to the order and pricing when I changed my mind. They also sent me a confirmation a week before the wedding which put me at ease and an email afterwards to say congratulations.

Fantastic service start to finish. Completely transformed our venue.

The best part of the lighting was the dance floor. We were given the choice of black or white and we chose black which made the floor stand out more. The string lighting outside was perfect, although with it being a winter wedding, not many people went outside, only the smokers, and there weren't many!

WVL we're easy to deal with, they responded to my enquiries quickly each time, providing up to date cost estimates. They dealt with the venue without me having to chase them up and I never even noticed them coming or going. They followed up with an email quickly. I would definitely recommend them.

Really helpful throughout the whole booking process and flexible when it came to timing and payment. We asked them to come in a day early when we were setting up so it was all ready for the day and they obliged. The overall finish was fantastic and really made a difference to others venue.

We used Wedding Venue Lighting to help decorate Millennium Gallery for our wedding ceremony and reception. The hanging lanterns they offer were available in a extensive range of colours that enabled us to pick a combination that would suit our colour scheme and bring the white space of the gallery to life. We were so pleased with the lighting supplied and the effect it created in our venue - we had numerous compliments about this. Communication from them was excellent - highly recommended!

We booked a dance floor, mirror photo booth and festoon lighting from this provider. The products were all high quality and well set up. The staff that assisted with the mirror photo booth were friendly, helpful and attentive. They were a brilliant supplier.

So easy and stress free, they set up and left the next day with no hassle whatsoever, they responded quickly to emails and was so nice to have one part of the day that I didn't need to worry about. The result was brilliant as well, I was worried that with it being New Year's Eve that the room would look too bright with main lights but too dark without, so pretty fairy lights looked absolutely perfect, we were so pleased.

Over the three years of planning. I spoke to Wedding Venue Lighting several times changing my mind about what I wanted and creating different packages from their comprehensive website. Eventually (due to my changes) they were able to make a package that suited both the venue and my budget. They were also able to do a package deal to incorporate extra items.

Matt and the team at wedding venue lighting were fantastic with us. The quality of the lighting was amazing and the venue looked great as a result. The set up was quick and efficient the day before our wedding; allowing us to decorate our venue without disruption. We were also given additional lighting options on the day which we accepted as they looked fantastic! Many thanks to wedding venue lighting!

Excellent communication throughout the booking, Wedding Venue Lighting took the time to make sure they were going to provide what we wanted. Seamless service they arrived set up and picked up on our wedding day without me or any of my guests noticing. They are experienced in what they do and the cost was competitive. Would recommend to all my family and friends.

The dance floor made our 70's fancy dress party which concluded our wedding weekend!

Absolutely fabulous. So easy to deal with and made it so easy to communicate with. They actually suggested they do 2 trips and drop some lights off for me during the day and come back to do the dance floor at night.

Local company who really looked after us, answered all my questions, let me change details and were on time and efficient, the room looked amazing, all my guests loved it. They aren't the cheapest I'll admit but the quality of work and service was fantastic.

From the beginning to the end communication was fantastic. Even at the wedding fairs we met staff who knew what we needed. Set up at the venue was on time, in fact earlier than expected so this took all the stress out of the dressing of the venue. We even got some last minute lighting on the day as there was lighting from a previous wedding already set up! Fantastic people and products that made our day one to remember

We wanted Chinese lanterns for our barn wedding we looked on their website and there was such an amazing array of choice and options shown we just knew that we wanted to use their services. The final result was beautiful the lanterns added exactly what we wanted to the venue it made it that much more special

Thankyou for making the venue look magical

The whole team were so accommodating and professional. We originally booked festoon lighting and large letters but our venue contacted us to say they will provide fairy lighting. When we contacted the wedding lighting company to say we didn't need the festoon they were really helpful letting us select another option making our

day sparkle even more. The large letters were the better than another's I've seen at wedding fairs and surpassed our expectations.

Michelle Towriss

Great friendly service and felt like we was completely looked after with the quality of floor and decorations we booked. The installation team was very polite and Kelly was a star! X
